# Building Line Series

**Seam Cord:** Braided or Twisted seam cord, good choices for precise marking and measuring in various garden and masonry tasks.

**PP Building Line:** made of Polypropylene multifilament yarns, are insensitive to dirt and moisture, rot-resistant, floatable

**PE Building Line:** Polyethylene string do not absorb moisture or dirt and they have a very high elongation at break.

**Nylong Building Line:** have a high breaking load and a very high elongation at break. Polyamide line withstand high shock loads very well,

# Bungee Cord Series

Bungee cord series most popular choices when binding, holding or tying is needed.

All these ropes are a great rope for general applications as well as connection and rigging applications.

It does great in the outdoors and tough elements of nature

# Outdoor Rope / Multi Function Series

Outdoor ropes series, With high quality and competitive prices, our camping series are the ideal rope for a Multi function series, we have variety different use range ropes and twines, such as fishing twine, clothline, ribbon belt, utility ropes and so on. Satisfy your different purpose and usage.

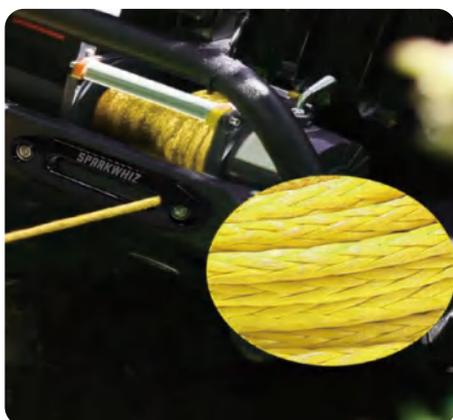

# Nature ropes

Nature Ropes, natural raw materials-Jute, Cotton, Sisal, Coconut husk, as protecting our enviroment purpose,all these ropes are biodegradable,environmental protection;  
Also we use eco- package,environment friendly and recyclable.

# Nets
